Qatar Pavilion at Floriade Expo 2022 | Almere, Netherland

R2C2 Studio is very glad to present this extraordinary project by the Ministry of Municipality, State of Qatar - the Qatar Pavilion.

R2C2 was in charged of detailing the Concept Design, Construction & Project management of the Qatar Desert Nest Pavilion, Operation, Events Management and Maintenance of the 6-month event and dismantling work at the end of the Floriade Expo.

The Pigeon Tower is officially the **Guinness World Record holder** as "The tallest freestanding 3D printed tower", he stands as one of the 4 towers of the Desert Nest, Qatar Pavillon Floriade Expo 2022 in Alemere NL.

The tower is built with a total of **66 printed** elements and weights over 63 tons. Only the top stone brings a weight of 3.5 tons to the tower, build on 11 rings and closed with the massive end stone holding the construction together.

HISTORY

The regional interest in space science and astronomy dates back to the 8th Century vital both in the practice of Islam and in navigation. In the 1970s His Highness the late Sheikh Zayed bin Sultan Al Nahyan articulated his vision of the UAE as a pioneer in space. By supporting talent and rapidly developing expertise, the UAE serves as an example of how to inspire local and regional youth.

With the support of the UAE's wise leadership, the national space sector has developed to include holistic satellite capabilities, space exploration and manned space flights together with a national space strategy, policy and law that supports the further development of the industry. Inspired by the scientific and astronomical achievements of our forefathers, this vision has resulted in the UAE leading the largest space sector in the region.

ABOUT US

The UAE Space Agency, the first national space agency in the region, was established in 2014, and is responsible for organizing, regulating, and supporting the national space sector under federal law. This includes the oversight and funding of space missions such as the UAE's Emirates Mars Mission's Hope Probe, the region's first Arab and Islamic interplanetary mission. The primary goals of the UAE Space Agency are to contribute significantly to the diversification of the national economy, enhancing the UAE's international standing in space-related fields, and issuing policy and laws for the space sector. Space sector capacity building programmes and raising awareness of space sciences and STEM fields develop the next generation of Emiratis for leadership in the space sector.

نبذة عن الوكالة

وكالة الإمارات للفضاء هي أول وكالة فضاء وطنية في المنطقة، تأسست عام ٢٠١٤ بموجب مرسوم بقانون اتحادي، لتكون مسؤولة عن تنظيم وتطوير القطاع الفضائي الوطني، إلى جانب تمويل المشاريع الفضائية والإشراف عليها مثل مشروع الإمارات لاستكشاف المريخ، أول مشروع عربي وإسلامي لاستكشاف كوكب المريخ.

وتتمثل الأهداف الرئيسية لوكالة الإمارات للفضاء في تعزيز مكانة دولة الإمارات في السباق العالمي للفضاء، والإسهام في تنويع الاقتصاد ونموه، ووضع السياسات الوطنية للقطاع، فضلاً عن تأهيل الشباب الإماراتي عبر تشجيع دراسة المواد العلمية لقيادة القطاع في المستقبل.

لمحة تاريخية

يعود تاريخ اهتمام المنطقة العربية بعلوم الفضاء والفلك إلى القرن الثامن الميلادي، حيث كانت تلعب دوراً محورياً في الحضارة الإسلامية والملاحة. ومنذ سبعينيات القرن الماضي، حرص المغفور له بإذن الله الشيخ زايد بن سلطان آل نهيان "طيب الله ثراه" على طرح رؤيته لنهضة الإمارات كدولة رائدة في مجال الفضاء، وهي الآن مثال يحتذى به للإلهام الشباب ودعم وتطوير المهارات والخبرات.

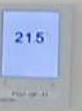

لقد أصبحت وكالة الإمارات للفضاء رائدة إقليمياً بفضل رؤية ودعم القيادة الرشيدة، حيث دخلت الإمارات السباق العالمي لاستكشاف الفضاء الخارجي وحققت إنجازات كبيرة في مجال صناعة الأقمار الصناعية، والرحلات المأهولة، إلى جانب إطلاق وثيقتي السياسة والاستراتيجية الوطنيتين لقطاع الفضاء وقانون فضائي حديث تدعمه تطور القطاع والبناء على إنجازات
